WE'RE TALKING ABOUT A REVOLUTION

We are on the brink of the fourth industrial revolution. Industrial automation & digital transformation go hand in hand. The world of industrial production is changing fundamentally and rapidly.

The path to the future has a clear goal: increase in productivity, efficiency, speed and quality. This not only gives companies competitive advantages such as faster time to market, increased flexibility and innovative strength. It also creates the basis for the business models of the future.

At **Rutronik TechTalk meets Industrial Automation on September 14, 2021**, we will look ahead together. Leading manufacturers such as **JAE, Telit, Pulse** and **Molex** will present new and innovative developments and solutions for tomorrows industry.

Top-class experts offer comprehensive insights into topics such as "Single Pair Ethernet and AX01 Floating Board-to-Board Solution", "5G and Private Networks for Industrial Automation", "Connecting 5G for Industry 4.0" and "Industrial Connectivity for Factory Automation".

Be part of the revolution and join us! The team of experts is looking forward to meeting you! www.rutronik.com/industrial-automation
