## Combine Technologies – Realize EMBEDDED Designs

### Rutronik Embedded –

the most reliable option for future-orientated purchase of embedded components from one hand.

We are well-known as distributor of embedded boards & systems, power supplies, storage components, TFT displays, passive LCD's, professional monitors, as well as wireless connectivity solutions, sensors and all needed electromechanical components to build up an intelligent embedded system for the emerging IoT market.

Boards & Systems

Storage

Displays

Wireless

### Boards & Systems

based on ever faster, more powerful, smaller and energy-saving components. Suitable and standardised power supplies, sensors and electromechanical components which guarantee functional reliability even under extreme operating conditions

### Storage

solutions in compact sizes with any number of read/write cycles with the highest storage density

### Displays

and touch systems, which provide the user with a perfect visualisation and operation of the real world and facilitate intuitive operation and the interaction of extremely complex systems

### Wireless

technologies facilitate the global linking of processes and databases in all conventional transmission standards and in a matter of seconds

## A strong partner. Worldwide

Fujitsu is the leading European IT infrastructure provider with a presence in all key markets in Europe, the Middle East and Africa, plus India, serving large-, medium- and small-sized companies as well as consumers.

The company offers a full portfolio of IT products, solutions and services. German engineering, and Japanese innovation coupled with comprehensive test and compliance capability in our own labs ensures extraordinary product quality and reliability across all product lines.

## Mainboards by Fujitsu

For more than 30 years, mainboards have been developed and produced in our Augsburg factory. Fujitsu puts special emphasis on highest product quality, long-term availability and direct technical support by the manufacturer.

Mainboards by Fujitsu reliably work in thin clients, servers and complete system solutions for industrial customers. With an annual production volume of around 2.5 million units, Fujitsu is the leading European manufacturer of mainboards.

The OEM Systemboard team can provide an all-in-one package. As all divisions of the company come together in one team, they fulfil all customer requirements in a short and direct way. From sales through logistics to technical issues the Fujitsu staff will take care of the problems.

# Mainboards Overview

Fujitsu's wide product range helps you to meet today's requirements. The products offer highest reliability, security and ease of use of features. Mainboards from Fujitsu are designed for customer needs.

Different customers have different requirements. In order to have the perfect solutions for all clients, Fujitsu Technology Solutions features three mainboard families:

- The Classic Desktop Series
- The Extended Lifecycle Series
- The Industrial Mainboard Series

Value

**Classic Desktop** // Standard Home and Office Applications

D3400-A/B      D3401-A/B/H  
D3410-B      D3402-A

**Extended Lifecycle**

// Semi-industrial Features

D3417-B      D3348-B  
D3402-B      D3222-B

**Industrial** // Special features for industrial needs

Long-term availability

# Basic Features for all Mainboards\*

## Silent Fan LT

Silent Fan LT is a low-cost, simplified variation of the Silent Fan function. Depending on various system temperatures and characteristics, it controls fan rotation speed for up to three fans via Onboard-Super-I/O. Silent Fan is a stand-alone hardware-/firmware implementation that works independently from the respective operation system without the need of any driver- or application environment.

## System Guard

System Guard is a software tool that provides users with a clear overview of all System-Management-Controller and Silent Fan functions. System Guard supports parameter setting, adjustable deterioration monitoring of supported fans, system event protocols (log files) and Watch Dog activation (for mainboards with Silent Fan only).

## Silent Drives

Silent Drives allows hard drives and optical drives to be switched to silent mode via BIOS. Aside from the remarkably lower noise, the „gentle“ motion contributes to an extended lifecycle of the drives.

## Recovery BIOS

BIOS content destroyed by an incomplete flash operation can be easily and reliably re-constructed multiple times by Recovery BIOS.

## Desk Update

Desk Update enables simple, automated driver installation. This feature is available through the OEM-DUDVD supplied by Fujitsu or via download.

## Multi Boot

The mainboard BIOS allows booting from any mass storage medium with e.g. PATA-, SATA-, eSATA-, CF-Card-, mSATA- and USB-interfaces.

## HDD Password

The password function of up to six different PC hard drives can be activated via system BIOS; a separate password can be assigned to each individual drive.

\*features might vary between board generations.  
For specific information please refer to the datasheet of the selected mainboards.

## Special Features of Extended Lifecycle and Industrial Series

### Silent Fan

All PC coolers are controlled and monitored, depending on various system temperatures and characteristics, by Fujitsu's in-house development, the System- Management-Controller. Cooling characteristics can be adjusted to the individual systems' thermal requirements via a special SW tool: SilentFanConfig. Silent Fan is a stand-alone hardware-/firmware implementation that works independently from the respective operation system without the need of any driver- or application environment.

### Watch Dog

Fujitsu's System Management Controller offers a Watch Dog function that can automatically execute a system reboot or shutdown in case of operating system failure. Watch Dog is activated and set via System Guard or by embedding a Windows-based Application Programming Interface (API) in customer-specific applications.

### Fanless

Industrial Mainboards such as D3313-S are based on mobile technology, using processors with very low thermal design power (TDP), for fanless system cooling.

# The Classic Desktop Series

As Europe's largest IT system manufacturer, Fujitsu offers a large variety of professional desktop mainboards in various form factors such as ATX,  $\mu$ ATX and mini-ITX. These are integrated into millions of Fujitsu systems every year, reliably running thin clients and high-end servers alike.

## Special features

The mainboards of the Classic Desktop Series are equipped with an Intel® 100-Series chipset which offers latest technology to fulfill office needs. The comprehensive lineup provides products for every business segment, from entry level office-PCs up to high performance and well manageable business solutions within enterprise infrastructure.

### Highlights D3400-B and D3410-B:

#### The reliable solutions for office needs

- Supports latest Intel® Processors
  - Intel® Core™ i7/i5/i3 – (6th gen.) processor series
  - Intel® Pentium®/Celeron® processor series
  - Socket LGA1151 - up to 65 W TDP
- DDR4 2133 SDRAM (UDIMM)
- Intel® HD Graphics (D3410-B up to 3 digital displays, D3400-B up to 2 displays)
- PCI Express Gen3
- Multichannel Audio & Realtek GbE LAN
- USB 2.0 and USB 3.0
- Trusted Platform Module V2.0 (Intel® integrated)

# The Extended Lifecycle Series

The standard lifecycle of desktop mainboards is 12 months to a maximum of 18 months. Taking into consideration the enormous expense necessary for certification and engineering, that time frame is too narrow for many commercial applications. To solve this problem, Fujitsu offers selected mainboards for an additional 12 to 24 months exceeding the series' regular End of Life (EOL).

## Special features

The mainboard components of the Extended Lifecycle Series are designed for long-term, continuous operations (24/7) in an extended temperature range and high system load. Extended Lifecycle mainboards are specified for a temperature range between 0 and 50°Celsius.

Fujitsu mainboards of the Extended Lifecycle Series are applicable in many branches:

- Public and Corporate Tenders
- Video Surveillance
- Medical Systems
- Webhosting
- CAD Workstations

## Mainboard D3222-B

### Highlights D3222-B:

#### Efficient solution for semi-industrial needs

- Support Intel® Core™ i7/i5/i3 Processors (LGA1150) with up to 95W
- Intel® Q87 Express Chipset
- High Efficiency Core Voltage Regulator
- Dual Channel DDR3 1600/1333 SDRAM, memory capacity: up to 32 GB
- Intel® HD graphics, DirectX 11.1 (depends on used processor)
- GigaBit LAN Controller (Intel® i217LM), vPro
- iAMT 9.0 Management Functionality
- 5.1 Multichannel Audio
- PCIe x16 (Gen3), PCIe x16 (4 lanes, Gen2) and PCIe x1 (Gen2)
- Onboard System Management Controller
- SATA-600 RAID 0, 1, 10, 5
- USB 3.0
- TPM V1.2
- Watch Dog

# Extended Lifecycle Series

## Mainboard D3348-B

### Highlights D3348-B:

#### Latest technologies for excellent performance

- Support Intel® Xeon® processor E5 – 26xx V3 series, E5 – 16xx V3 series  
E5 – 26xx V4 series, E5 – 16xx V4 series
- Support Intel® Core™ i7 processor 59xx series, 69xx series
- Compatible with Intel® Processors LGA 2011-R3 up to 160W TDP
- Intel® C612 Series Chipset
- High Efficiency Core Voltage Regulator
- Quad Channel DDR4 2133/2400 SDRAM (ECC), memory capacity: up to 512 GB
- Dual Intel® GigaBit LAN-Controller, supporting iAMT 9.1/vPro
- Intel® High Definition Audio
- Dual PCI Express x16 (Gen3), 1 PCIe x16 (4 lanes, Gen2),  
1 PCIe x16 (4 lanes, Gen3), 1 PCIe x8 (4 lanes, Gen 3) and  
2 PCIe x8 (1 lane, Gen 2)
- SATA-600 RAID 0, 1, 10, 5
- USB 3.0
- 1x COM (internal connector)
- TPM V2.0/V1.2
- Watchdog

# Extended Lifecycle Series

## Mainboard D3417-B

### Highlights D3417-B:

#### Designed to assure business critical applications

- Supports latest Intel® Processors
  - Intel® Xeon® E3-12xx V5 processor series
  - Intel® Core™ i7/i5/i3 – (6th gen.) processor series
  - Intel® Pentium®/Celeron® processor series
  - Socket LGA 1151 - up to 80W TDP
- DDR4 2133 SDRAM (ECC), memory capacity up to 64 GB
- Intel® iAMT 11.0
- Onboard Support for M.2 SSD (PCIe)
- Intel® HD Graphics
- PCI Express Gen3
- USB 2.0/3.0 and USB 3.0 Socket (Stick)
- Multichannel Audio & Intel® GbE LAN
- Trusted Platform Module V2.0 (Infinion)
- HW Watchdog

## Mainboard D3235-S

## Mainboard D3236-S

D3235-S

D3236-S

### Highlights D323x-S:

#### PC-technology for continuous operation

- Support Intel® Core™ i7/i5/i3 Processors (LGA1150) with up to 95W
- Intel® Q87/H81 Express Chipset
- High Efficiency Core Voltage Regulator
- Dual Channel DDR3 1600/1333 SDRAM, memory capacity: up to 32 GB
- Intel® HD graphics, DirectX 11 (depends on used processor)
- GigaBit LAN Controller (Intel®), DASH Support, vPro
- iAMT 9.0 Management Functionality
- 5.1 Multichannel Audio
- PCIe x16 (Gen3), PCIe x16 (4 lanes, Gen2), PCIe x1 (Gen2) and up to 4x PCI
- Onboard System Management Controller
- SATA-600 RAID 0, 1, 10, 5
- USB 3.0
- TPM V1.2
- Watchdog

## Mainboard D3243-S

### Highlights D3243-S:

#### Smart and powerful solution

- Support Intel® Core™ i7/i5/i3 Processors (LGA1150) with up to 95W
- Intel® Q87 Express Chipset
- High Efficiency Core Voltage Regulator
- Dual Channel DDR3 1600/1333 SDRAM, memory capacity: up to 16 GB
- Intel® HD graphics, DirectX 11.1 (depends on installed processor)
- Dual GigaBit LAN Controller (Intel®), vPro
- iAMT 9.0 Management Functionality
- 5.1 Multichannel Audio
- PCIe x16 (Gen3)
- Onboard System Management Controller
- SATA-600 RAID 0, 1, 5, 10
- USB 3.0
- TPM V1.2
- Watch Dog
- mSATA Socket

D3434-S

### Highlights D3433-S and D3434-S:

#### Efficiency and connectivity for smart solutions

- Designed for 24/7 continuous operation
- Supports latest Intel® Processors
  - Intel® Core™ i7/i5/i3 – (6th gen.) processor series
  - Intel® Pentium®/Celeron® processor series
- Intel® HD Graphics
- PCI Express Gen3
- Dual Intel® GbE LAN & Multichannel Audio
- USB 2.0 & 3.0
- Trusted Platform Module V2.0
- BIOS-POST/-Boot & OS – HW Watchdog
- Adjustable PCIe-Lane configuration (x16/x8, x8/x8, x4, x4 \*\*)
- Mini-PCIe, mSATA & M.2 Support
- Dual Power Supply Option (ATX/12V DC-In)

# Industrial Series

## Mainboard D3441-S

### Highlights D3441-S:

#### Fulfill various industrial requirements

- Supports latest Intel® Processors
  - Intel® Core™ i7/i5/i3 – (6th gen.) processor series
  - Intel® Pentium®/Celeron® processor series
- Intel® iAMT 11.0/vPro 2015
- Onboard support for Mini-PCI Express and mSATA
- Intel® HD Graphics; PCI Express Gen3
- Multichannel Audio & Dual Intel® GbE LAN
- USB 2.0/3.0 and USB 2.0 socket (stick)
- Trusted Platform Module V2.0 (Infineon)
- HW Watchdog

### Highlights D3445-S and D3446-S:

#### Right-sized solution for every application

- Supports latest Intel® Processors
  - Intel® Xeon® E3-12xx V5 processor series \*\*
  - Intel® Core™ i7/i5/i3 – (6th gen.) processor series
  - Intel® Pentium®/Celeron® processor series
- Intel® iAMT 11.0
- Intel® HD Graphics
- PCI Express Gen3
- Multichannel Audio & Dual Intel® GbE LAN
- USB 2.0 & 3.0
- Trusted Platform Module V2.0
- BIOS-POST/-Boot & OS – HW Watchdog

## Mainboard D3313-S

### Highlights D3313-S:

#### Mainboard Family Concept:

- small formfactor
- low power drain
- extensive onboard-features

#### ■ Supports latest AMD embedded Processors

- D3313-S1: GX-210HA, 1.00 GHz, Dual Core (9W TDP)
- D3313-S2: GX-217GA, 1.65 GHz, Dual Core (15W TDP)
- D3313-S3: GX-420CA, 2.00 GHz, Quad Core (25W TDP)
- D3313-S4: GX-222GC, 2.20-2.40 GHz, Dual Core (10/15W cTDP)
- D3313-S5: GX-412HC, 1.20-1.60 GHz, Quad Core (5/7W cTDP)
- D3313-S6: GX-424CC, 2.40 GHz, Quad Core (15/25W cTDP)

#### ■ AMD Radeon integrated graphics on board DVI-I, DP V1.2 and Dual Channel LVDS support

#### ■ PCIe x4 connector and Mini-PCI Express

#### ■ Dual GbE LAN

#### ■ 8 Bit GPIO

#### ■ Serial ATA III

#### ■ mSATA (SATA III) socket support

#### ■ 3 x serial port and 1 x parallel port

#### ■ Infineon TPM V1.2 (optional module)

#### ■ Dual-Range DC Power Supply 12V/19-24V

\* Depends on the extension

## IPC mini-ITX chassis for D3313-S

### Highlights IPC mini-ITX Chassis for D3313-S:

- Small size – large expandability
- Perfect fit for mini-ITX mainboard D3313-S
- Small size (250 x 52 x 191 mm)
- Large expandability for
  - 2.5" hard disc drive (HDD)
  - Low profile PCI/PCIe card
- Extended temperature range \*
- Fanless with D3313-S1/-S2/-S4 and -S5 \*
- Intrusion-Logic (Detection of chassis opening)
- Theft-protection via Kensington-Lock
- Comprehensive certification and test reports on system level (e.g. CE, climatic)
- Stands for vertical/horizontal positioning
- Wall mount brackets
- Comprehensive accessories (optional):
  - PCI/PCIe riser card
  - VESA mounting kit
- IPC Mini-ITX Chassis with VESA Mounting Kit directly attached to Monitor

\* Depending on environmental conditions
