●Related Documentation

The product specification documentation, user manual and other related documentation for the HVC-P2 can be downloaded from Omron's web site. Please find the URL in the user manual included in the package.

●Precautions and Disclaimer

(1) Definitions:

- 1) *Omron Product*: HVC-P2, whose model numbers are described in the header of this document, which includes HVC-P2 prototype board and software development kit (SDK). The SDK includes demo software, sample code, command specification and other documents.
- 2) *Customer*: Distributor and/or the end Customer who introduces or uses the Omron Product in the Customer Application.
- 3) *Customer Application*: Evaluation of Omron Product, any kind form of development using Omron Product in connection with the Customer's end product.
- 4) *Software*: (i) Omron's OKAO™ software, as embedded in the Omron Product and (ii) the demo software included in the SDK

(2) CAUTION ON DESCRIPTIONS

Attention is required to the following points:

- 1) Rated values and performance values are the product of tests performed for separate single conditions, including but not limited to temperature and humidity. **Omron does NOT warrant rated values and performance values for multiple combined conditions.**
- 2) Reference data are provided for reference only. **Omron does NOT warrant that the Omron Product works properly at all times in the range of reference data.**
- 3) Application examples are provided for reference only. **Omron does NOT warrant the fitness of the Omron Product in Customer Application.**
- 4) **This Omron Product is a prototype model.** Omron may change the specifications of them in commercial mass production or cancel the mass production of the Omron Product entirely at Omron's sole discretion.

(3) PRECAUTIONS AND CONDITIONS OF USE

Customer accepts the following precautions and conditions when Customer introduces or uses the Omron Product in a Customer Application:

- 1) Customer shall use the Omron Product in compliance with usage conditions, including but not limited to, rating and performance. Please verify the specification and performance as well as safety of the samples before testing. In performing testing, use the samples by giving sufficient allowance for rated values and performance and take safety measures, such as use of a safety circuit to minimize risk in the event of a failure.
- 2) The Omron Product is composed of (i) hardware and (ii) the Software. The Software is an inseparable part of the Omron Product and the use and application of this Software is strictly limited to the use and application of the Omron Product as a whole, to be used in the Customer Application. **It is strictly forbidden to extract, copy, amend, reproduce the Software and/or to otherwise infringe Omron's intellectual property rights on the Omron Product and the Software, and doing or attempting to do so may be punishable by law.**
- 3) **Omron never ensures any product quality for a prototype model. THE OMRON PRODUCT SHALL STRICTLY NOT BE PROVIDED WITH OR INCORPORATED IN ANY CUSTOMER'S END PRODUCT FOR MASS PRODUCTION.**

(4) CUSTOMER APPLICATION

- 1) The precautions and conditions of use written above also apply equally to end-Customers. **DISTRIBUTORS shall ensure that such conditions of use are being made clear to end-Customers.**

(5) LIMITED WARRANTY AND LIMITATION OF LIABILITY

ANY WARRANTY ON THE OMRON PRODUCT SHALL NOT APPLY FOR ANY REASON. OMRON DISCLAIMS ALL LIABILITY, TO THE EXTENT POSSIBLE BY LAW, FOR ANY AND ALL COSTS OR DAMAGES WHICH MAY ARISE IN RELATION TO THE OMRON PRODUCT OR CUSTOMER APPLICATION WHERE THE OMRON PRODUCT OR CUSTOMER APPLICATION IS INTRODUCED OR USED IN A MANNER THAT IS NON-COMPLIANT WITH THE PRECAUTION AND DISCLAIMER STATEMENTS INCLUDED IN THIS DOCUMENT.

OMRON SHALL NOT BE LIABLE FOR LOSS OF USE OR ANY OTHER SPECIAL, INCIDENTAL, CONSEQUENTIAL OR INDIRECT COSTS, EXPENSES OR DAMAGES.
