

HUMAN MASCHINE INTERFACES / **knitter-switch** MASCHINE TO MASCHINE TECHNOLOGY SOLUTIONS

Membranes / Rubber Keypads

Key Features

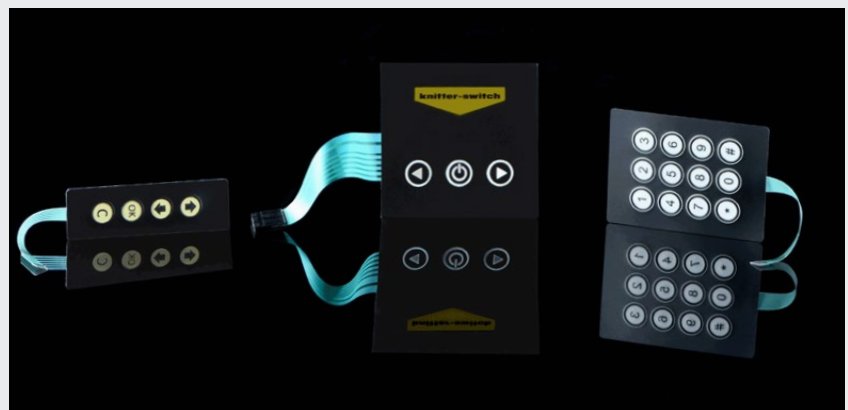

- Fully customized design

Key Applications

- Control units & control panels

Key Benefits

- Space saving
- Back-printing of the film for a robust, individual design
- Individual tactility
- Dustproof and water resistant
- Easy to clean
- Long life-time cycles

HUMAN MASCHINE INTERFACES / **knitter-switch** MASCHINE TO MASCHINE TECHNOLOGY SOLUTIONS

Capacitive Touchfoil

Key Features

- Fully customized design

Key Applications

- Touch foil for keyboards

Key Benefits

- No actuation force required
- Easy to clean (robust against chemicals)
- Individual design
- Long life-time cycles

Industrial Control Switches

Key Features

- Full range of industrial controls including emergency switches and pilot lamps

Key Applications

- Industrial control units

Key Benefits

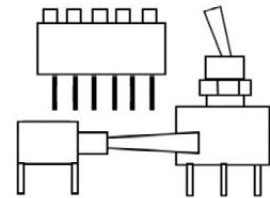

- Sealed, modular design, easy assembling, broad choice of components
