Re: Impact of Coronavirus on AVX Operations

Dear Rutronik-Team:

AVX is closely monitoring the impacts of the coronavirus in China and elsewhere. At present, we anticipate only minimal impacts on our supply chain and our ability to deliver products to our customers. None of the AVX facilities are located in a quarantined area and none are close to Wuhan.

The situation, however, is fluid and could change on short notice. Accordingly, we are ensuring that all potentially impacted facilities are updating their pandemic response plans. Further, we are evaluating secondary impacts on shipping and sourcing of key materials to minimize any secondary impacts.

AVX is committed to ensuring the integrity of its customers' supply chains and will make every effort to avoid or minimize any disruption.

If you have any questions, please do not hesitate to contact Bichvan Tang for further information.

Sincerely, Bichvan Tang
– Distribution Manager
